## CONTRACT SERVICES

Your Product. Our Passion<sup>SM</sup>

### WHAT IS CENTRIX CONTRACT SERVICES?

At Centrix Contract Services we develop and deliver customized solutions to precise specifications for some of the largest companies in the medical, dental, veterinary and natural health fields.

We have over 50 years' experience offering short-run, flexible and differentiated contract manufacturing; specializing in proprietary filling of challenging materials including dual component chemistries. Centrix Contract Services is a market leader in the design and production of applicators, syringes, and a variety of unit-dose devices. Our state-of-the-art facility located in Shelton, CT houses a full range of equipment that can mold, manufacture, fill and package a wide array of products; and all manufacturing is done in the United States.

Centrix Contract Services offers comprehensive manufacturing from inception to final production, packaging and shipping. Our in-house R&D, testing and prototyping capabilities enable us to build products to your precise specifications with rapid turnaround.

#### **Does your material need to be placed in or on the body?**

Centrix has a system to do that, or we can design one for you. We are an FDA registered, ISO 13485 certified facility with an ISO Class 7 clean room; our products and facilities comply with FDA, EU and Health Canada registration regulations.
